

# SilcoStar 902E

Hydraulic driven  
metering system  
for processing LSR

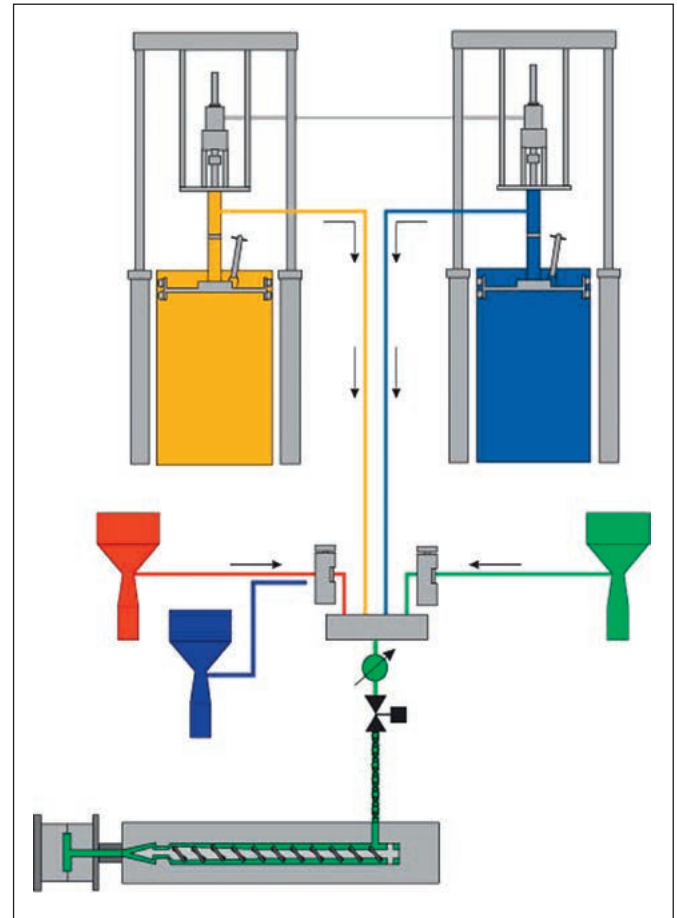

## SilcoStar 902E

### Technical Data

Viscosity	< 1.000.000 mPas
Output mixed material	800g/min (depending on viscosity)
Mixing ratio	1:1
Colour metering	0.3 – 4%

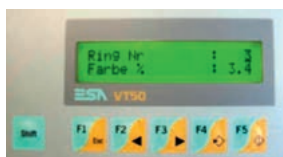

### Consumption / Connections

Actuation	hydraulic
Electrical data	180 – 470VAC / 50 – 60 Hz, 3P+PE, 10 A
Connection	
LIM machine	24V
Pneumatic system	R1/4", 6bar, low
Weight	appr. 450kg
Dimensions	860 x 757 x 2.100 mm [W x D x H]

### Options

- Colour- metering
- Proportional colour metering
- Cooled mixing unit
- Interchanging supply of two LIM machines
- Movable version (on wheels)
- Varnishing in special colours

▲ *proportional colour metering*

◀ *10 l colour supply pump*

▲ *colour metering with metering valve and position indicator*

▲ *cooled mixing unit*
